

## A Little Gift from Vaiuuu

Hi Liza,

Okay, so today, I am writing it as a brother. Although brother- sister relationship in the world is one of the most pure relationships. We are not siblings by blood but siblings by heart. I can say without any doubt that I got the best sis in my life till now. I myself have no sister, but as a best friend and as a perfect elder sister you fulfil the vacancy. As you know, there is no medium for me by which I can express my thoughts in a good way, that's why I always write my feelings as it is. Really, Liza, you are too much valuable for me. The call 'didiuuu' really makes my heart fill with a great kind of energy and love, and when I hear the call 'vaiuuu' I myself feel so special to somebody. Words will fall short if I starts describing everything. Yeah, I still want to spend time with you by keeping the head on your shoulders. A heavenly feeling as a brother and sister, and I think a brother and a sister can also be best-friends. As a elder sister you always showed me the right path. And the way we enjoy everything in our inbox is awesome. We two share all our sorrows, enjoys and

everything between us. I am really too much blessed to have you. Really, Those golden days are cherishing in my mind right now as I am writing this. The science city is the greatest one undoubtedly. But from our last journey the time we spent is not less than a golden one. Though we did not click a single picture of us, still the pictures of walking together gossiping, the gossip in the ground under the tree is glowing in my mind. Those days are just amazing. The roy company is the symbol of our unbroken friendship. I hope we will be such best friends for the rest of our life, wherever we go, this brother-sister relationship will never break. If it is possible to meet today, then I definitely will give you a cadbery dairy milk, but it is not possible in this lockdown condition. Whatever, this is the virtual gift from me. I know that I am not good at writing, still I tried to express myself, though you know these all, but I have nothing to give you without this. I don't know if I have written something wrong but these are the true feelings. I know that I am missing a quiet more things but I have to finish it. At last, I just want to say, Today, in this Raksha-Bandhan day, this 'vaiuu – didiuu' is the best gift for me.
